

Damilola Oyeniya

Frontend Developer -React | Typescript

Lagos, Nigeria
09036818841
damilolaoyeniya13@gmail.com

CAREER OBJECTIVE

With over a year of frontend programming expertise, I improved my abilities to detect and correct errors and flaws in a codebase, with a focus on React and TypeScript. My speciality is creating dynamic, user-friendly web apps that meet the needs of users and clients.

I consider ways to improve an application and ensure that my ideas are implemented. I am always eager to learn new things and stay current on the latest web development tools and techniques in order to create beautiful, high-quality, and user-friendly interfaces.

EXPERIENCE

VENNDO Marketplace, Frontend Developer — Contract

April 2023 -present.

- Slashed the estimated time to complete web pages by 30% by implementing designs created by UI/UX teams at a fast pace while conducting code reviews.
- Restructured the company's codebase to enable smooth readability for newly employed developers while writing comments for better understanding.

Swift-MediSpark, Frontend Developer — Intern

August 2022 - Jan 2023

- Visualized the list of hospitals that use the company's EMR by building a web page with React and seamlessly integrating a restful API to the page while fixing bugs on the main site.
- Increased the EMR's performance by 10% by removing unused functionalities in the codebase while improving the UI.

SKILLS

JavaScript
React
Typescript
HTML
Firebase
CSS
Tailwind
Chakra UI

CERTIFICATES

Zuri x I4G finalist
Scrimba React Finalist

Zuri x I4G, Frontend Developer — Intern

May 2022 - August 2022

- Exceeded expectations by offering frontend solutions and fulfilling project requirements, as well as executing assigned tasks on time and efficiently in order to meet deadlines.
- Researched various programming languages recommended by senior programmers in order to better my coding skills while collaborating with design teams to create stable web sites.

EDUCATION

University of Ilorin, Kwara, Nigeria: *Bachelor of Science in Geology and Mineral Science*

September 2019 - June 2024

VOLUNTARY WORK

4 Youth By Youth — *Research facilitator*

August 2020 - Present

- Recruited individuals who could benefit from the program and provided them with HIV kits for their health and awareness.
- Persuaded participants to make educated health decisions and visit the clinic as needed, while maintaining constant connection to share information, answer queries, and provide other resources as needed.
