PROFESSIONAL SUMMARY

Seasoned frontend engineer with roughly 2 years of frontend programming experience. I have a strong aptitude for detecting and correcting faults and defects in codebases, with a particular focus on React and TypeScript. I consistently strive to identify methods to improve applications and ensure the successful execution of my suggestions. To produce aesthetically pleasing and intuitive interfaces, I maintain a proactive approach towards learning and remain up-to-date with the latest web development tools and techniques.

EDUCATION

University of Ilorin   **September 2024**
Bachelor of Science in Geology and Mineral Sciences   *Kwara, Nigeria*

WORK EXPERIENCE

VENNDO Marketplace   **April 2023 – July 2023**
Frontend Developer   *Remote*
- Slashed the estimated time to complete web pages by 30% by implementing designs created by UI/UX teams at a fast pace while conducting code reviews.
- Restructured the company's codebase to enable smooth readability for newly employed developers while writing comments for better understanding.

Swift Medispark   **August 2022 – January 2023**
Frontend Developer   *Remote*
- Visualized the list of hospitals that use the company's EMR by building a web page with React and seamlessly integrating a restful API to the page while fixing bugs on the main site.
- Increased the EMRs performance by 10% by removing unused functionalities in the codebase while improving the UI.

Zuri x Ingressive For Good   **May 2022 – August 2022**
Frontend Developer   *Remote*
- Exceeded expectations by offering frontend solutions and fulfilling project requirements, as well as executing assigned tasks on time and efficiently in order to meet deadlines.
- Researched various programming languages recommended by senior programmers in order to better my coding skills while collaborating with design teams to create stable web sites.

VOLUNTEER EXPERIENCE

4 Youth By Youth   **August 2020 – Present**
Research Facilitator   *Lagos, Nigeria*
- Recruited individuals who could benefit from the program and provided them with HIV kits for their health and awareness.
- Persuaded participants to make educated health decisions and visit the clinic as needed, while maintaining constant connection to share information, answer queries, and provide other resources as needed.

SKILLS

Skills: Javascript, React, Typescript, Redux, HTML, CSS, Tailwind, Chakra UI, Firebase, Git

CERTIFICATIONS

Ingressive for Good x Zuri Training   **August 2022**
